Background Colors

The classes for background colors are: `.bg-primary`, `.bg-success`, `.bg-info`, `.bg-warning`, `.bg-danger`, `.bg-secondary`, `.bg-dark` and `.bg-light`.

The `.bg-color` classes above does not work well with text, or atleast then you have to specify a proper `.text-color` class to get the right text color for each background.

However, you can use the `.text-bg-color` classes and Bootstrap will automatically handle the appropriate text color for each background color:
