## Bootstrap 5 Button Groups

[◀ Previous](#)[Next ▶](#)

### Button Groups

Bootstrap 5 allows you to group a series of buttons together (on a single line) in a button group:

Apple Samsung Sony

Use a `<div>` element with class `.btn-group` to create a button group:

#### Example

```
<div class="btn-group">
  <button type="button" class="btn btn-primary">Apple</button>
  <button type="button" class="btn btn-primary">Samsung</button>
  <button type="button" class="btn btn-primary">Sony</button>
</div>
```

[Try it Yourself »](#)

**Tip:** Instead of applying button sizes to every button in a group, use class `.btn-group-lg` for a large button group or the `.btn-group-sm` for a small button group:

Large Buttons:

Apple Samsung Sony

Default Buttons:

Apple Samsung Sony

Small Buttons:

Apple Samsung Sony

#### Example

```
<div class="btn-group btn-group-lg">
  <button type="button" class="btn btn-primary">Apple</button>
  <button type="button" class="btn btn-primary">Samsung</button>
  <button type="button" class="btn btn-primary">Sony</button>
</div>
```

[Try it Yourself »](#)

### Vertical Button Groups

Bootstrap 5 also supports vertical button groups:

Apple  
Samsung  
Sony

Use the class `.btn-group-vertical` to create a vertical button group:

#### Example

```
<div class="btn-group-vertical">
  <button type="button" class="btn btn-primary">Apple</button>
  <button type="button" class="btn btn-primary">Samsung</button>
  <button type="button" class="btn btn-primary">Sony</button>
</div>
```

[Try it Yourself »](#)

### Button Groups Side by Side

Button groups are "inline" by default, which makes them appear side by side when you have multiple groups:

Apple Samsung Sony BMW Mercedes Volvo

#### Example

```
<div class="btn-group">
  <button type="button" class="btn btn-primary">Apple</button>
  <button type="button" class="btn btn-primary">Samsung</button>
  <button type="button" class="btn btn-primary">Sony</button>
</div>

<div class="btn-group">
  <button type="button" class="btn btn-primary">BMW</button>
  <button type="button" class="btn btn-primary">Mercedes</button>
  <button type="button" class="btn btn-primary">Volvo</button>
</div>
```

[Try it Yourself »](#)

### Nesting Button Groups & Dropdown Menus

Apple Samsung Sony ▼

Nest button groups to create dropdown menus (you will learn more about dropdowns in a later chapter):

#### Example

```
<div class="btn-group">
  <button type="button" class="btn btn-primary">Apple</button>
  <button type="button" class="btn btn-primary">Samsung</button>
  <div class="btn-group">
    <button type="button" class="btn btn-primary dropdown-toggle" data-bs-toggle="dropdown">Sony</button>
    <div class="dropdown-menu">
      <a class="dropdown-item" href="#">Tablet</a>
      <a class="dropdown-item" href="#">Smartphone</a>
    </div>
  </div>
</div>
```
