They work for all breakpoints: xs (<=576px), sm (>=576px), md (>=768px), lg (>=992px), xl (>=1200px) or xxl (>=1400px)): The classes are used in the format: $\{property\}\{sides\}-\{size\}\}$ for xs and $\{property\}\{sides\}-\{breakpoint\}-\{size\}\}$ for sm, md, lg, xl and xxl. Where *property* is one of: • m - sets margin p - sets padding Where *sides* is one of: t - sets margin-top or padding-top • b - sets margin-bottom or padding-bottom • s - sets margin-left or padding-left • e - sets margin-right or padding-right • x - sets both padding-left and padding-right or margin-left and margin-right • y - sets both padding-top and padding-bottom or margin-top and margin-bottom blank - sets a margin or padding on all 4 sides of the element Where size is one of: 0 - sets margin or padding to 0 1 - sets margin or padding to .25rem 2 - sets margin or padding to .5rem • 3 - sets margin or padding to 1rem • 4 - sets margin or padding to 1.5rem • 5 - sets margin or padding to 3rem auto - sets margin to auto Example I only have a top padding (1.5rem) I have a padding on all sides (3rem) have a margin on all sides (3rem) and a bottom padding (3rem) <div class="pt-4 bg-warning">I only have a top padding (1.5rem)</div> <div class="p-5 bg-success">I have a padding on all sides (3rem)</div> <div class="m-5 pb-5 bg-info">I have a margin on all sides (3rem) and a bottom padding (3rem)</div> Try it Yourself » More Spacing Examples .m-# / m-*-# margin on all sides Try it .mt-# / mt-*-# margin top Try it .mb-# / mb-*-# margin bottom Try it .ms-# / ms-*-# margin left Try it .me-# / me-*-# margin right Try it .mx-# / mx-*-# margin left and right Try it .my-# / my-*-# margin top and bottom Try it .p-# / p-*-# padding on all sides Try it .pt-# / pt-*-# padding top Try it .pb-# / pb-*-# padding bottom Try it .ps-# / ps-*-# padding left Try it .pe-# / pe-*-# padding right Try it .py-# / py-*-# padding top and bottom Try it .px-# / px-*-# padding left and right Try it You can read more about rem and different size units in our <u>CSS Units Reference</u>. Shadows Use the **shadow**- classes to add shadows to an element: Example No shadow Small shadow Default shadow

Tutorials ▼ Exercises ▼ Get Certified ▼ Services ▼ Menu ▼ HTML CSS JAVASCRIPT SQL PYTHON JAVA PHP BOOTSTRAP HOW TO W3.CSS C C++ C# REACT R JQUERY DJANGO TYPESCRIPT NODEJS MYSQL Bootstrap 5 Tutorial <div class="shadow-none p-4 mb-4 bg-light">No shadow</div> BS5 HOME <div class="shadow-sm p-4 mb-4 bg-white">Small shadow</div> <div class="shadow p-4 mb-4 bg-white">Default shadow</div> **BS5 Get Started** <div class="shadow-lg p-4 mb-4 bg-white">Large shadow</div> **BS5 Containers** BS5 Grid Basic Try it Yourself » BS5 Typography BS5 Colors BS5 Tables BS5 Images BS5 Jumbotron Vertical Align BS5 Alerts **BS5 Buttons** Use the align-classes to change the alignment of elements (only works on inline, inline-block, inline-table and table cell elements): BS5 Button Groups BS5 Badges BS5 Progress Bars Example BS5 Spinners **BS5** Pagination baseline ^{top} middle bottom text-top ^{text-bottom} BS5 List Groups BS5 Cards baseline BS5 Dropdowns top BS5 Collapse middle **BS5 Navs** bottom BS5 Navbar text-top text-bottom BS5 Carousel BS5 Modal Try it Yourself » BS5 Tooltip BS5 Popover BS5 Toast BS5 Scrollspy BS5 Offcanvas Aspect Ratio BS5 Utilities BS5 Dark Mode Create responsive video or slideshows based on the width of the parent. BS5 Flex Add the .ratio class together with an aspect ratio of your choice .ratio-* to a parent element, and add the embed (video or iframe) inside of it: Bootstrap 5 Forms BS5 Forms Example BS5 Select Menus BS5 Checks and Radios <!-- Aspect ratio 1:1 --> BS5 Range <div class="ratio ratio-1x1"> BS5 Input Groups <iframe src="https://www.youtube.com/embed/tgbNymZ7vqY"></iframe> BS5 Floating Labels </div> **BS5 Form Validation** <!-- Aspect ratio 4:3 --> Bootstrap 5 Grid <div class="ratio ratio-4x3"> BS5 Grid System <iframe src="https://www.youtube.com/embed/tgbNymZ7vqY"></iframe> </div> BS5 Stacked/Horizontal BS5 Grid XSmall <!-- Aspect ratio 16:9 --> BS5 Grid Small <div class="ratio ratio-16x9"> BS5 Grid Medium <iframe src="https://www.youtube.com/embed/tgbNymZ7vqY"></iframe> BS5 Grid Large </div> BS5 Grid XLarge <!-- Aspect ratio 21:9 --> BS5 Grid XXL BS5 Grid Examples <div class="ratio ratio-21x9"> <iframe src="https://www.youtube.com/embed/tgbNymZ7vqY"></iframe> Bootstrap 5 Other </div> BS5 Basic Template Try it Yourself » BS5 Editor **BS5** Exercises BS5 Quiz **BS5** Certificate Visibility Use the .visible or .invisible classes to control the visibility of elements. Note: These classes do not change the CSS display value. They only add visibility:visible or visibility:hidden: Example I am visible <div class="visible">I am visible</div> <div class="invisible">I am invisible</div> Try it Yourself » Close icon Use the .btn-close class to style a close icon. This is often used for alerts and modals. Example \times <button type="button" class="btn-close"></button> Screenreaders Use the .visually-hidden class to hide an element on all devices, except screen readers: Example I will be hidden on all screens except for screen readers. Try it Yourself » Colors As described in the <u>Colors</u> chapter, here is a list of all text and background color classes: The classes for text colors are: .text-muted, .text-primary, .text-success, .text-info, .text-danger, .text-secondary, .text-white, .text-dark, .text-body (default body color/often black) and .text-light: Example This text is muted. This text is important. This text indicates success. This text represents some information. This text represents a warning. This text represents danger. Secondary text. Dark grey text. Body text. Try it Yourself » Contextual text classes can also be used on links: Example Muted link. Primary link. Success link. Info link. Warning link. Danger link. Secondary link. Dark grey link. Body/black link. Try it Yourself » You can also add 50% opacity for black or white text with the .text-black-50 or .text-white-50 classes: Example Black text with 50% opacity on white background White text with 50% opacity on black background Try it Yourself » Background Colors The classes for background colors are: .bg-primary, .bg-success, .bg-info, .bg-warning, .bg-danger, .bg-secondary, .bg-dark and .bg-light.
